

## Windstar Cruises to Launch High-Speed Starlink Internet Across Global Fleet

**MIAMI, FL, February 13, 2023** -- Windstar Cruises has announced the launch of its Starlink Maritime high-speed, advanced broadband satellite internet capabilities. Already connecting the world by sea, Windstar Cruises will provide guests one of the most developed high-speed connections in the world both while sailing and when in port.

Windstar launched the new Wi-Fi technology on *Star Pride* during a recent Caribbean voyage and plans to implement Starlink across most of its global fleet by mid-2023. *Star Legend* will offer the service this spring, followed by *Wind Surf*, *Wind Star*, and *Star Breeze*. *Wind Spirit* will activate the new technology as soon as it's available in French Polynesia.

Currently, all Windstar Cruises use geostationary satellite service, Anuvu, for internet services. The addition of Starlink technology will amplify Anuvu, delivering more reliable and faster internet to Windstar's guests. Starlink is the world's first and largest satellite constellation with a low Earth orbit using lasers so communication can happen further away from ground based stations."

"I am thrilled to be working with Anuvu and Starlink to offer our guests the latest in satellite technology," said Gregg Wagner, technology director, Windstar Cruises. "When the ships are inside the service area, faster speeds will alleviate much of the frustration felt at peak use times."

"Starlink is yet to be available worldwide, but Windstar Cruises is excited to be among the first in the cruise industry to offer this cutting-edge technology. The addition of high-speed internet service with our current geostationary satellite service will enable guests to stay connected to family and friends."

Starlink will be available on select Windstar voyages where the service is active; not all global destinations are available. View Starlink's current maritime coverage and progress map [here](#).

**About Windstar Cruises**

Windstar Cruises operates a fleet of six boutique all-suite and sailing yachts carrying 148-342 guests. Small ship cruises sail throughout Europe; the Caribbean; Costa Rica and the Panama Canal; Asia; Alaska and British Columbia; New England and Eastern Canada; the U.S. West Coast and Mexico; the Middle East, and the South Pacific, including a ship year-round in Tahiti. Windstar launched the *\$250 Million Star Plus Initiative* to transform the three all-suite Star Plus Class yachts with new suites, restaurants, and a world-class spa and fitness center. The award-winning line is known for immersive experiences, destination authenticity, port-intensive itineraries, exceptional service, and an innovative culinary program. Windstar Cruises is part of the Xanterra Travel Collection®, a group of global hospitality and travel companies, one of which traces its history back over a hundred years of operating our country's iconic national parks, including Grand Canyon, Yellowstone, Glacier, Death Valley, and many others. Xanterra Travel Collection®, is owned by The Anschutz Corporation, the ultimate owner of the Broadmoor, Sea Island, and entertainment giant AEG, Anschutz Entertainment Group.
